

## Love Is Complete Unselfishness And Shows Mankind At Its Best

Most of Us Have To Struggle Through Life With the  
Dazzling Flame Unlighted and Are Better  
Off Without Its Great Demands.

By HEATHER FAIRFAX.

WE all speak earnestly of love. Just as we see the words eat, drink, talk, walk, work, sleep, dream, so readily and matter-of-factly do we speak the name of love.

Tet how many of us know what love is?

These gentle, amiable, practical minded young girls who ask for advice in their choice between two suitors—one blond and one dark, or one rich and one poor—and who are so ready, upon receiving counsel to love the blond suitor and forget the dark, or to accept that pile, never and disburse the poor one—do these girls know what love is?

Young men and women who exchange vows of eternal constancy and the next week allow themselves to be separated by suspicion, by jealousy, by a foolish quarrel over some trifling thing—do they know what love is?

Young men who bristly select a capable looking girl and marry her because

## FREED FROM THE PHYSIC HABIT

Says her constipation ended and stomach trouble left. Tells how.

"I had stomach trouble and constipation very bad for a long time. Tried everything, but kept getting worse. I could hardly eat anything and my bowels wouldn't move unless I took a physic every day. I have to support myself and two children, yet I was not able to work."

"The first bottle of Mils Emulsion did wonders for me, and I have continued its use until now I feel fine and can work every day. I have a good appetite, my stomach trouble has left me, and my bowels are as regular as clock work."—Mrs. Mary Winder, 318 S. Court St., Sioux City, Iowa.

Mrs. Winder found out what all sufferers should know—take six bottles home and physics do not end constipation, but usually make it worse.

Mils Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Mils Emulsion is strongly recommended to run-down nervous people, and it has produced amazing results in many cases of chronic rheumatism, neuritis, and tuberculosis of the lungs. Chronic constipation and stomach trouble are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children.

No matter how severe your case, you are urged to try Mils Emulsion under this guarantee—Take six bottles home with you, use it according to directions, and if not satisfied with the results, your money will be promptly refunded. Price six and twelve per bottle. The Mils Emulsion Co., Terre Haute, Ind., and guaranteed by all leading druggists.—Adv.

## See This Gusher?

The cut herewith shown is from a photograph of the Bryan No. 1, taken several days after that famous producer was brought in a few months ago. Oil was flowing from the well, at that time, at the rate of 30,000 barrels per day. It has steadied down to a 20,000-barrel daily production, as shown by the pipe line reports.

NEARLY A MILLION A MONTH.

The production from the Bryan No. 1 is valued at nearly \$1,000,000 per month and is making its stockholders rich "beyond the dream of avarice."

## THE DAMON OIL COMPANY

Owning 10 acres adjoining the tract on which the Bryan No. 1 is spouting forth its golden stream and is now drilling a well, just three-eighths of a mile from the Bryan. The well is now down nearly 1200 feet and should be completed on or about May 1, next. To secure the money necessary for the completion of the well now being drilled and to put down others we are offering some of our stock at par—\$10 per share. Our capitalization is \$200,000, covering five tracts, including the one alluded to above, all in proven territory.

## DAMON

## An Investment, Not a Speculation

Because of the fact that every one of our locations is in proven territory, surrounded by producing wells, we think you will agree with us that an investment in the stock of the DAMON OIL COMPANY is as safe as would be an investment in any industrial proposition ever offered the public. We count the closest investigation as to our properties or the men who are organizing the company. Call, phone or write

## HOROSCOPE

FRIDAY, APRIL 4, 1919.

NEPTUNE rules strongly for good late this day, according to astrology. Uranus, Mercury and Mars are all adverse.

It would seem that, owing to some fact that has been hidden relative to world diplomacy, public sentiment regarding it will be suddenly turned.

The stars are read as indicating a speeding up of peace agreements and a better feeling regarding world safety.

Astrologers had predicted that, in certain circumstances, the recent great conflict would be the last in history, but they now give warning that another disaster may arise within the span of years allotted to those who fought in France. This may be interpreted to mean in less than 25 years.

There is a sign indicating that soldiers may be subject to shocking influences through some sort of evil writings. They are warned of insidious propaganda, which will reach them in hidden ways.

Uranus, however, also, an increase in mental diseases, insanity may be feared. And yet, a sign of peace, a safe, sane, unwarmed in the hearts of great peoples.

Can Love Atoned Sublimity? If we're really dumb, I imagine that most of us would make the latter choice. We like to believe that we live with peace and regularity and comfort, and we can do nothing of the sort if love is to flash through us on a wild and stormy highway.

Find the woman who has loved most unhappily, the man who has loved most miserably in pain, and ask them whether they would rather that they never known this sublime but devastating experience. And you will find that whatever cost they are glad to have known love.

Comfort, happiness, health—they are willing to be paid all these as a price, only to have had a glimpse of that radiant, intangible paradise that is love.

It sounds like folly, doesn't it? It sounds like the very opposite of all that we know of things we ever been taught.

But it's a superhuman sort of folly, a divine sort of madness. When the world is capable of loving and of understanding love, humanity will be on a higher plane.

Japan Starts Campaign To Retain Control Of Islands Taken In War

Table, Japan, April 3.—(Correspondence of The Associated Press).—Public opinion in Japan is not entirely unanimous as the question whether Japan shall retain possession of the Marshall and Caroline Islands, which she took from Germany and now holds. The Osaka Mainichi sets forth the attitude of many Japanese thinkers in an article in which that newspaper insists that the islands shall be retained. The Mainichi declares that if America was allowed to seize and fortify Hawaii and thus to greatly threaten Japan; if she was permitted to occupy Guam and the Philippines, making them not only a source of wealth to herself, but also a great menace to Japan, China and the Dutch East Indies; if Australia and New Zealand have similar control over New Guinea and Samoa, it is certain that Japan shall possess the Marshall and Caroline Islands, excluding the same right and rule over them.

"And to so doing," the paper asserts, "Japan will be only acting the part of a small watch dog faithfully protecting its own house, in a very different manner and spirit from the American wolf in sheep's clothing."

"Racial discriminatory treatment in these respects too, should be abolished and these islands not to be left to white man's domination." The opposite view was expressed by Tsuboi Tadao, former minister of justice, in an address delivered in Tokyo a few days ago in which he said: "It is, indeed, a great honor for Japan to occupy the position of a stockholder in that great international corporation, the League of Nations. The honor is far greater than Japan will obtain by the possession of the Marshall and Caroline Islands."

## TEACHER GOING EAST FOR SOLDIER WORK CONFERENCE

W. A. Burk, supervisor of manual arts in the El Paso High School, has been granted a leave of absence by the local school board to do reconstructive work, left for Washington, D. C., Thursday for a conference with the federal board for vocational training for disabled soldiers. The conference will be for the purpose of laying plans for carrying on the work.

Mr. Burk will be in Washington 10 days and will then return to El Paso where he will be in charge of a vocational and vocational training for soldiers in the hospitals in the El Paso district.

## HIGH SCHOOL BOYS WILL VISIT N. M. STATE COLLEGE

Twenty six boys of the animal husbandry class of the El Paso High School, will spend Saturday visiting New Mexico State Agricultural College at Mesquite Park. An invitation was extended to the High School boys by State college authorities.

The party, accompanied by Daniel Hall, head of the subject department of the High School, will leave Saturday morning at 7 o'clock. Luncheon at Mesquite Park. An invitation was extended to the High School boys by the college faculty for the boys.

## AD CLUB WILL DISCUSS ADVERTISING OF KRAKAUER

The advertising of the house of Krakauer, Zerk & Moyer will be the subject for the El Paso Ad Club luncheon of the El Paso Ad Club in the Sheldon grill. Julian Hughes, representing the firm, will be the chairman. Sale of tickets for the choice of portraits of president Wilson and Gen. Pershing will be closed at the meeting.

Charles R. Stevens To Be A Candidate.

Much to the satisfaction of our citizens, C. R. Stevens, at present a member of the school board, has consented to give our schools the benefit of his experience for another term. Young America demands that the affairs of our schools be placed in the hands of a capable Board of Trustees. Charles Stevens has proven himself worthy of that trust.—Adv.

## HOGWALLOW NEWS

Donk Butts, Regular Correspondent.

ALIAS PECK did not get up until nearly dinner yesterday, as somebody the night before stole the rooster he has always kept to crow for gettin' time.

The Hogwallow postmaster fell through the postoffice floor the other day and skinned his ankle. He will try to keep it from getting well before an inspector comes around, as he wants to show him what he is having to put up with here.

Columbus Allsup says there should be some sort of a charge of a few dollars made to tell the truth in a horse trade. He says most of the horses he has had in life have been due to this one thing.

Tam Sims was tried before Justice Allsup yesterday on a charge of breach of the peace, to which he pleaded guilty. He was charged with slapping his sweetheart, the widow of the California neighborhood, Judge.

## AND HE DID

ILL SING A LITTLE GERMAN LOVE-SONG TO SOOTH THE BABY-BO HELL-SLEEP!

AND HE DID!

Says Trans-Atlantic Flight Is Certain Of Success

Spokane, Wash., April 3.—That the first transatlantic flight from this country in a huge dirigible balloon, scheduled to leave the coast of New Foundland next month, will be successful is the opinion of Bert J. Perry, of this city, who will be pilot-attendant on the trip.

"I feel certain," said Perry, "that we will be able to get the 'blimp' over all right. In our trials we have demonstrated that we can stay up and I think the tests have convinced the government that it can be done. All any rate the bureau of navigation, the bureau of weather and a lot of other bureaus have taken our reports and among them have figured out on paper that we can do it."

"Our greatest difficulty will be to pick up our man on the trip. This can be done while we are in motion. If this task is accomplished and the weather favorable I am sure we will get to Quebec, which is our destination."

Miss Josephine Lefter, of Pueblo, Colo., has been appointed a railway mail clerk, having to be the first woman in the United States assigned to a regular "train" to the service.

## IT'S NOT YOUR HEART; IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. It is affecting people today can be traced back to the kidney trouble. The kidneys are the most important organs of the body. They are the filters of your blood. If the poisons which are swept from the tissues by the blood are not eliminated through the kidneys, disease of one form or another will claim you as a victim. Kidney disease is usually indicated by weakness, sleeplessness, nervousness, dizziness, backache, aching joints, pain in joints and lower abdomen, gait stones, gravel, rheumatism, asthenia and indigestion. All these discharges are nature's signals that the kidneys need help. You should use GOLD MEDAL Backen Oil Capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammation and detaches the poisons which have caused it. Go to your druggist today and get a box of GOLD MEDAL Backen Oil Capsules. In twenty-four hours you should feel health and vigor returning. After you feel somewhat improved continue to take one or two capsules each day, so as to keep the first-class condition of your kidneys and ward off other attacks. Ask for the original imported GOLD MEDAL brand. Three sizes. Money refunded if they do not help you.

## Holbrook, Ariz.

Many companies preparing to drill—4 new drilling—2 companies now near the oil which many geologists say is below.

Positive evidence also has been encountered and you may not be able to buy Admiana stock at any price in 3 days from this date. Their 3 rigs, 2000 ft. of casing, 10,000 acres of choice land and continuous drilling is ENOUGH, but with the reputation of the three who added make their stock a better buy today than \$100 and \$1000 stock in fields with a few acres, and the many already wells decreasing the flow of gas and oil, the old instance repeated a 1000 times of big fortunes told about oil, or of the buyers who bought in the first companies in new fields when land and stock were cheap. Are you wise or putting your money where someone tells you he has put his?

This will be positively the last announcement before double holding plan is withdrawn. You will not have another announcement in regard to this company, they have very near all the money in the bank they need to complete the first well.

Buyers now will get an option to buy the same number of shares after oil is found at the same price of ten cents per share. Wire Holbrook State Bank in regard to this company and send your order to

March, 1919.

The honor is far greater than Japan will obtain by the possession of the Marshall and Caroline Islands."

## IMMEDIATE ACTION

Is Promised You  
By The  
Ranger-Burk Consolidated Oil Co.

The limited amount of stock which we are selling is going as fast, present indications are that we have sufficient funds to finance the drilling of our first wells in the near future. Negotiations are now under way to secure a competent, experienced, drillers who will have absolute charge of all our operations. Mr. L. E. Lockhart, vice-president, and general manager of the Ranger-Burk Consolidated Oil Company, expects to leave for Ranger next week to complete arrangements.

Just as we have promised you in every one of our advertisements, we are going after OIL and we will number one in producing wells number two and three will be drilled, for we have sufficient acreage in the PROVEN Ranger Field to permit the drilling of dozens of wells.

Don't put all your eggs in one basket. Invest in a company that has the acreage to drill a number of wells in the PROVEN district rather than the company that expects to drill ONLY one well.

Gushers Surround Our Holdings

The first well will be drilled on one of our 20 acre blocks of land southeast of Ranger. It is surrounded on all sides by big producing wells and in fact, we are almost in the center of the big gusher district. Prominent geologists have already located the site of our first well and they say we are sure to bring in a big producer. These that buy our stock now at par—before drilling commences, will be in the ground floor, for after drilling starts, the value of our stock is bound to increase as the drill goes down.

Remember, we have 270 acres in the proven Ranger field and over 1000 acres in all. This is not a "promotional company," but an organization of well known business men who are determined to bring in a big producing well and reap a share of the liquid gold which is flowing from the Ranger Field. Here is your chance to get in with a company that absolutely promises to give you a square deal in every particular, and what's more—quick action on your money.

## We Will Soon Be Drilling

Don't delay until our drill reaches the oil producing sands, for then it will be too late. Our stock will have increased in price, while now, for a limited time, you can still buy it at par. You want to remember that the company is sponsored by reliable business men—men who have made reputations for square dealing throughout the Southwest. Ask your banker about their responsibility. And don't forget, not an officer of this company will draw ANY salary until oil is produced. Your money and their money, less necessary expenses, will GO into the ground. They win, if you win. They will lose, if you lose. So, naturally, they pledge themselves to GO after the oil and GET IT.

## OFFICERS AND TRUSTEES:

GEO. D. ELLIOTT, President, of Tucson, Arizona. Also president of the Elliott-Garrett Company, Ltd., of El Paso, and one of the most successful and best known cattlemen in the Southwest.

L. E. LOCKHART, First Vice-President and General Manager. Is president and general manager of the Rio Grande Oil Company, of El Paso, one of the largest independent oil companies in the Southwest. (This company is now erecting a large refinery in El Paso). Mr. Lockhart is a thoroughly experienced oil man and the operations in the Ranger-Burk Consolidated will be under his supervision.

RALPH DIMMITT, Second Vice-President. Is a successful traveling salesman, representing one of the large shoe manufacturers.

F. J. GARRETT, Secretary-Treasurer. Also vice-president and general manager of the Elliott-Garrett Company, Ltd., of El Paso, successful automobile distributors.

Stock is being sold now at par, \$1.00 Per Share, and we advise you to get your application in early.
